Contents 1996

No 1, 1–112

Synthesis of pentasubstituted benzamides via ortho-metallation: base and substituent effects, 7

Hydroxylation of carbanions with lithium *tert*-butyl peroxide acting as an oxenoid, 15

Characterization of *meta*-substituted phenyldi(1-adamantyl)methanol rotamers by X-ray crystallography and ^{13}C NMR spectroscopy, 25

Synthesis and X-ray crystal structure analysis of α-acetylenic phosphole derivatives, 33

Étude de la dimérisation en milieu acide de la mélatonine (5-méthoxy-*N*-acétyltryptamine) et de quelques dérivés apparentés. Oxydation de 2-arylindolines en 2-arylindoles, 39

Ring-opening mechanism in the glycosylation of 2,4(1*H*,3*H*)-quinazolinediones with *erythro*-3-*O*-tosyl and *threo*-3-iodo-2,3-dideoxypentofuranosides, 51

Thermoneutral nucleophilic substitution of β-distonic ions $\bullet CH_2CH_2XH^+$ in the gas phase (X = OH, OCH_3, OC_2H_5, NH_2), 59

New facile and convenient synthesis of bispolyazamacrocycles using Boc protection. Determination of geometric parameters of dinuclear copper(II) complexes using ESR spectroscopy and molecular mechanics calculations, 65

Carbonylative coupling of iodobenzene to benzophenone with $[n\text{-}Bu_4N][HFe(CO)_4]$, 75

Synthesis and structure of the neutral π-donor Me_3TTF-COOH and of its decarboxylated cation radical salt $Me_3TTF^{\bullet+}[Re_6Se_5Cl_9^-]$, 83

Hydratation d'α-aminonitriles en présence d'eau oxygénée en solution aqueuse basique. I, 89

$FeCp^+$-induced polybenzylation of polymethylbenzenes: double and triple branching, 101

No 2, 113–216

Ockham's Razor and chemistry, 117

Lithiations *ortho*-dirigées par la fonction acide carboxylique et par les atomes de fluor et de chlore. II. Synthèse régiosélective d'acides benzoïques et d'acétophénones polysubstitués, 133

On the use of 1,3-dienylboronates in Diels–Alder reactions. Part I: a strategy towards the synthesis of clerodin, 143

Séparation Ag(I)/Cu(II) par membrane liquide émulsionnée en vue de valoriser des déchets électroniques, 151

Préparation sélective d'alcools benzyliques substitués à partir de substrats aromatiques complexés dans la β-cyclodextrine, 161

Reactivity of α,α′-dichloroketones towards anions electrogenerated at carbonium and oxygen atoms. Electrochemically-induced Favorskii rearrangement. Part 2, 167

Stereochemistry in group 5 organometallic complexes: a metallophosphine with an asymmetric tantalum centre as precursor of chiral bimetallic derivatives, 177

Radiochemical stability of the dicyclohexano-18-crown-6 ether (DCH18C6): synthesis and tests in radioactive medium of the DCH18C6 radiolytic products, 183

Synthesis, X-ray structure and photophysical properties of a pyrido dithia bridged anthracenophane, 199

Synthesis of thio analogues of *myo*-inositol-1-monophosphate, as possible inhibitors of myo-inositol-1-monophosphatase, 205

Phototransformations of aziridin-1-yl enones and aziridin-1-yl fumarates substituted by a trifluoromethyl group in various positions, 209

No 3, 217–312

Electronic structure and possible electronic instability of the novel alkali metal telluride Cs_3Te_{22}, 221

Synthesis and electronic structure of a homoleptic trithiocarbonato iron complex: $[PPh_4]_3[Fe(CS_3)_3]\bullet H_2O$, 225

Activated nitriles in organic synthesis: synthesis of pyranoquinolinone, 6*H*-2-benzopyrano[4,3-*c*]quinolinone and thieno[2,3-*b*]pyridine, 229

Molécules amphiphiles électroréductibles. Étude de la réduction en milieux aqueux de sulfates d'ω-(4-acétylphénoxy)alkyle, 235

Thermodynamic stability of copper(II), manganese(II), zinc(II) and iron(III) complexes with chlorogenic acid, 243

Composés interagissant avec la tubuline. Partie II : synthèse de lactames tricycliques à squelette phénylpyrrole, analogues structuraux du rhazinilame, 251

Synthesis, characterization and relaxivity of functionalized aromatic amide DTPA-lanthanide complexes, 267

Utilisations synthétiques d'une électrode soluble au soufre en électrochimie organique. V. Création de l'enchaînement CSSSC par réaction de l'électrophile S^{2+} avec des thiols ou des thiolates, 273

Intramolecular Diels–Alder reaction of cyclenic trienes: stereoselectivity and NMR structure determination, 283

Characterization of diamond obtained by shock compression of carbon black, 295

A new synthesis of polyenic analogues of tetrathiafulvalene, 301

No 4, 313–436

Novel di- and trinuclear oxoperoxosulfato species in molybdenum(VI) and tungsten(VI) chemistry: the key role of pairs of bridging peroxo groups, 319

Substituted *N*-aryl alk-1-enesulfinamides: preparation, properties and conversion into the corresponding indole compounds, 329

Synthesis of Ru, Rh and Pd complexes immobilized on modified supports. Investigation of the hydrogenation of cinnamaldehyde, 351

Surface behaviors of monometallic and cobalt-containing rhodium catalysts on SiO_2 in relation to their catalytic properties for hydroformylation, 359

Des bipyridines aux alcaloïdes du tabac et molécules apparentées, 369

L'échelle pK_{HB} des bases π, 381

L'échelle pK_{HB} de la diméthylnitramine, des vinylogues de nitramine et des nitramidates, 389

Pyrolyse des acétates du 2-anilinoéthanol, du 2-phénoxyéthanol et du 2-(phénylthio)éthanol. Étude de la formation d'indole, de benzofurane et de benzothiophène, 395

Un nouveau champ de force anisotrope pour la liaison hydrogène. II. Application aux alcools et éther-oxydes, 405

Highly extended, planar and sulfur-rich tetrathiafulvalene derivatives: towards an increased dimensionality of organic metals, 417

Étude par chromatographie en phase gazeuse des propriétés de rétention de trois phases stationnaires cristaux liquides substitués latéralement, 427

No 5, 437–536

Chemical and biochemical aspects of the biosynthesis of ethylene, a plant hormone, 441

Routes to optically-active substances. Rationalization of enantioselectivity and diastereoselectivity, 457

Étude de la chimisorption de l'hydrogène sur des catalyseurs Ru/Al_2O_3, 461

IR studies on CO insertion reaction with SiO_2-supported rhodium active site, 471

Désalkylation de phénols en phase gazeuse par catalyse hétérogène, 477

Chemical syntheses of *syn*- and *anti*-1,2;3,4-diepoxides derived from 1,4-dimethyl- and 1,2,3,4-tetramethylanthracenes and naphthalenes, 481

Synthesis of new deazatetrahydropterins as potential NO synthase modulators, 491

Synthesis and reactivity of new trifluoromethylated azacyanines starting from 3-(1-amino-2,2,2-trifluoroethylidene)pyrrolidin-2-ones, 501

Synthesis of diethyl 3-(trifluoromethyl)glutamate, 509

A convergent synthesis of γ-unsaturated thioaldehyde- and thioketone-*S*-oxides, 515

Dichlorocyclopropanation of sugar dichloroolefins: a new route to spirocyclopropanes at the anomeric position, 531

No 6, 537–644

Synthesis of 2-functional phospholide anions from 1-phenylphosphole precursors, 541

Catalytic effects on the oxidation of benzyl alcohol by montmorillonite-supported metal nitrates, 547

Synthesis, structural studies and antiretroviral evaluation of 3′-aza-4′-thia-2′,3′-dideoxynucleosides (thiazolidine-nucleoside analogues), 553

Utilisation de la carbopalladation des allènes dans la synthèse de composés polycycliques. Accès rapide au squelette des stéroïdes, 563

Stereoselective access to α-azido aldehydes and a new synthetic route to myriocin, 581

Amidine–enediamine tautomerism: addition of isocyanates to 2-substituted 1*H*-perimidines. Some syntheses under microwave irradiation, 587

Anodic oxidation of aminated dibenzothiophenes: isolation of stable radical cation salts of 3,7-diaminodibenzothiophene and 3,7-bis(dimethylamino)dibenzothiophene, 597

Regiospecific reaction of phosphaimines with a zirconium–benzyne complex. Synthesis and reactivity of novel azaphosphazirconaindans, 611

Spéciation du platine lors de la préparation de catalyseurs supportés : utilisation de la RMN de ^{195}Pt, 617

Réactions de photocycloaddition [2 + 2] intramoléculaire de *N*-alcénoyl β-énaminones, 625

Palladium–alumina catalysts: precursor, support and dispersion effects in selective hydrogenation, 637

No 7–8, 645–796

Protein tyrosyl free radicals as active species in metalloenzyme catalysis, 653

The aminoacylation of transfer RNAs: a structural point of view, 661

Ligand redistribution reactions leading to new phosphinoenolate, methyl palladium complexes. Crystal structure of [(PdMe){$Ph_2PCH...C(...O)Ph$}(PPh_3)], 669

Synthesis and Cu(I) binding properties of two tris-bipyridine ligands. Self-assembly of homostrand and heterostrand trinuclear double helical complexes, 673

Preparation and characterization by electrospray mass spectroscopy of cationic metalloporphyrin DNA cleavers, 679

Biphosphinine-copper(I) complexes: chelate vs polymeric helical structures, 691

Synthesis of new sterically hindered porphyrins and their corresponding manganese(III) derivatives. Potential catalysts for oxidation reactions by ozone, 697

Complementary Mössbauer, EPR and theoretical studies of the exchange-coupled oxoferryl porphyrin cation radical system [(Cl)Fe(IV)=O(TMP)•], 703

The reduction of pentavalent group 5 compounds with KC_8 or $LiBH_4$: a potpourri of oxidation states, 711

Alkyl, aryl and ethynyl group exchange on organocobalt(III)porphyrins. Characterization of anionic bis(ethynyl)cobalt(III)porphyrins, 721

Cobalt(II) and rhodium(I) metal complexes of thia- and oxasapphyrins, 725

Conversion of a porphyrin into a 5,6-dihydroporphyrin. Synthesis and X-ray crystal structure of (5*RS*,6*SR*)-5,6-dihydro-6-(methoxycarbonyl)-8-oxo-5,10,15,20-tetraphenyl-8*H*-7-oxaporphyrin, 735

Simultaneous binding of boron and alkaline metal cations by a macrocyclic ligand bearing catechol units: structural analysis of borocryptates, 743

A transition-metal-assembled dyad containing a porphyrin module and an electro-deficient ruthenium complex, 749

Catalyzed oxidation of alcohols by *cis*-dioxomolybdenum(VI) complexes via oxygen atom transfer from sulfoxides, 755

A new type of ionophore for ion-selective field-effect transistors, 759

Porphyrins bearing halogens at the *meso*-phenyl and β-pyrrolic positions: synthesis and spectral properties, 765

Lanthanide(III)-copper(II) molecular compounds with a ladder-like motif: structure and magnetic properties, 777

A concave, cubic diamond coordination polymer in the versatile chemistry of the aqua-alkaline-earth complex salts of molecular hexanuclear chalcohalide rhenium clusters, [$Ca(H_2O)_n$] $Re_6Q_6Cl_8 \bullet mH_2O$ and [$Mg(H_2O)_6$]$Re_6S_6Cl_8 \bullet 2H_2O$ (Q = S, Se), 783

No 9, 797–920

Inversion of the stereoselectivity in the reduction of the carbonyl group in a precursor to forskolin by the $NaBH_4/CeCl_3$ reagent, 801

Formation of symmetrical alkenes by homocoupling of metallated sulfones under nickel catalysis, 805

Conversion of non-activated alkenes into cyclopropanes with lithiated sulfones under nickel catalysis, 817

Temperature effect on overloaded elution properties of cyclodextrins in reversed-phase chromatography, 831

Synthèse de 5,6-dihydro-2-uraciles *F*-alkylés, 839

Propylthiocyclopentadiene: a new synthetic route to complexes of iron and group 4 transition metals. Molecular structure of $(C_5H_4SCH_2CH_2CH_3)_2ZrCl_2$, 843

Stereoselectivity in the template-directed synthesis of D_3 (chiral) and C_{3h} (achiral) cryptophanes with long $O(CH_2)_nO$ spacer bridges, 853

Synthesis and characterization of a new pyrimidine derivative: 5-[1-phenyl-2-(3-chlorophenyl) ethyl]-2,4,6-trichloropyrimidine, 869

Estérification des acides gras libres de l'huile de grignon d'olive par l'éthanol ou le méthanol effet inhibiteur de l'alcool, 875

A palladium-catalyzed route to chiral 1,2,3-trisubstituted cyclopropanes, 881

Oxidation potentials and electron spin resonance spectra of 1,2,3,4-dibenzocycl[2.2.3]azines and their radical cations. A novel peripheral 18π system, 891

Réaction de divers 5-aminobenzazoles *N*-méthylés avec les dérivés éthoxyméthylène des pentane-2,4-dione et 3-oxobutanoates substitués, 897

α-Thioxothioamides. Réactions de cycloaddition [4 + 2] avec l'acétylènedicarboxylate de diméthyle et le propiolate de méthyle, 903

Bismuth(III) carboxylates as a new class of oxidants: pyridine carboxylates and dicarboxylates in the oxidative cleavage of aryl epoxides and α-ketols, 913

No 10, 921–1032

Décontamination chimique. I. Déphosphorylation des composés organophosphorés, 925

Preparation of tuneable ($Ph_2P(CH_2)_nPPh_2$)Ru(2-methylpropenyl)$_2$ catalysts and their use for the stereoselective synthesis of dienyl esters, 939

Synthesis and hydrogenation of 1-methylenecarbapenam, 945

Phosphorothioate-mercaptophosphonate rearrangement: synthesis of new *o*-mercaptoaryl and *o*-mercaptoheteroaryl phosphonates and their derivatives, 951

Sterically encumbered aluminum aryloxide complexes, 965

Reactivity of nitrite with 2-chlorophenol, *t*-butyl phenol and resorcinol in mild acidic conditions, 973

Synthesis of various (pentamethylcyclopentadienyl)Ru(η^6-arene) complexes of phenalene derivatives, 979

Toward the synthesis of the esperamicin-A_1/calicheamicin γ_1^I aglycone: the study of an 'azoxy' version of the [2,3]-Wittig rearrangement, 987

A new access to racemic carbacephems, 997

Nouveaux dérivés fonctionnels du cyclotrivératrylène. Préparation de cyclotrivératrylènes tris-trifluorométhylés, 1005

Réduction microbiologique de 3,4-dicétones et d'α-cétothioacétals. Application à une synthèse chimioenzymatique des énantiomères des *exo*- and *endo*-brévicomines, 1011

Catalytic acryloxypalladation of vinylcycloalkanes and *exo*-methylene cycloalkanes. Mechanistic insights into the competition between allylic acryloxypalladation and formation of α-methylene γ-butyrolactones, 1023

No 11, 1033–1164

Les polyénones à conjugaison croisée en chimie moléculaire, 1037

Hoechst 33258, un agent de reconnaissance du petit sillon de l'ADN, 1053, 1053

Synthèse et caractérisation de nouveaux cations bis(pentadiénylium) possédant le groupe séparateur 1,4-phénylènediamine, 1071

Étude par dynamique moléculaire de la réaction d'ouverture des acides glycidiques par l'ammoniaque. Rôle de la protonation et de la solvatation, 1081

Palladium-catalyzed cross-coupling reactions of arenediazonium tetrafluoroborates with aryl- and alkenylboronic acids, 1095

Behavior of hex-1-ene over binary and ternary Cu-Ce-Al oxide catalysts under a hydrogen atmosphere, 1103

Catalytic enantioselective oxidation of sulfides with a chiral titanium complex, 1109

Préparation, structure et étude spectroscopique (IR et UV-vis) du diaqua-tris(pentane-2,4-dionato-*O*,*O*')Ce(III)monohydraté, 1117

Carbophilic reactions of amines or methanol with thioaldehyde-*S*-oxides, 1127

What is the reason for the difference in Diels–Alder reactivity of isomeric substituted dienes? A case involving 1,3-dienylboronates, 1143

A practical asymmetric synthesis of *ent*-12-*epi*-PGF2a methyl ester, 1149
